## 📁 Professional Experience

### Infosys Limited, Senior Systems Engineer, Pune

January 2023 – Present

#### Angular Developer(Wingspan)

I am working on building high-performance, scalable web applications using **Angular**, with expertise in **responsive design, multi-tenant architecture, and multilingual support**.

- **Feature Enhancements:** Developed and optimized features for the admin module, playlist updates, and access management, improving usability and operational efficiency.
- **Structural & Attribute Directives:** Implemented logic for multi-tenant user interfaces using Angular's structural and attribute directives, ensuring tenant-specific views without impacting others.
- **Code Optimization & Theming:** Enhanced code performance and implemented responsive dark/light themes, ensuring consistency and user-centric design.
- **API Integration:** Integrated Angular HTTP Client to interact with REST APIs, fetching data from server-side endpoints for seamless application functionality.
- **Optimized Web Apps with Angular & RxJS:** Built scalable, user-centric applications with multi-tenant and multilingual support. Used **RxJS** (forkJoin, switchMap, etc.) for efficient API handling and async workflows.
- **Multilingual & Multi-Tenant Support:** Verified client-specific translations and contributed to secure multi-tenant architectures for resource optimization and isolation.
- **Agile Project Management and Issue Tracking:** Actively participated in daily Scrum calls and Agile project management, monitoring tickets, stories, and defect statuses using Jira to ensure SLA compliance.
- **Technologies:** Angular 17+, Git, HTML, CSS , Rxjs , JavaScript, Markdown.

### Infosys Limited,, Systems Engineer, Pune

September 2021 – December 2022

#### Java Developer(UBS)

- Developed and implemented backend CRUD operations using Microservices architecture with Spring Boot.
- Designed and created UBS API endpoints to perform CRUD operations, integrating data from multiple APIs and transforming it into consistent and reliable outputs.

## 🧠 Skills

**Technical Skills: Primary:** Angular ,Angular 17+,Angular Material ,Rxjs, HTML ,CSS,Bootstrap ,Typescript

**Technical Skills: Secondary:** Core Java, NodeJs, Springboot

**Tools Used ::** Github, Agile Methodology , Postman, Jira, Vs Code, Eclipse, Chrome Devtool

**Soft Skills:** Communication Skills , Problem-Solving , Adaptability , Critical Thinking , Collaboration

## 📄 Certificates

Infosys Certified Java Programmer • Infosys Certified Java SE 8 Developer •

Infosys Global Agile Developer certification • Infosys Certified Java SE 8 Professional •

Infosys Certified Web Developer

## 🏆 Awards

- Awarded for the Eminence award 2024 from Nagpur DC

## 🎓 Education

**Rajiv Gandhi College Of Engineering And Research,**  
**Bachelors Of Engineering(Information Technology)**

2017 – 2021 | Nagpur, India
